| **Review date** | 1 August 2027 |

**CONTROLLED DOCUMENT**

## Document control and approval

| Version | Date | Change | Author/approver |
|---|---|---|---|
| 1.0 | 1 August 2026 | Initial controlled issue | Joseph Olugosi / J.O |

**Important implementation note:** This document becomes operational evidence only when approved, communicated, implemented and supported by the referenced records. Fields in square brackets must be completed with genuine information before submission.

## Purpose and commitment

The Company will prevent pollution, use resources efficiently, protect communities and wildlife, and comply with environmental and waste duty-of-care obligations.

## Scope

This policy applies to all directors, employees, workers, agency staff, apprentices, consultants and subcontractors working for or on behalf of Jimgos Maintenance Ltd, at offices, client premises, occupied homes, construction sites, vehicles, remote locations and work-related events.

## Responsibilities

- The Managing Director provides leadership, resources and annual approval.
- The Responsible Person maintains the system, records, training and monitoring.
- Managers and supervisors plan work, brief teams, verify controls and stop unsafe or non-compliant work.
- Every worker must follow the policy, report concerns promptly and cooperate with investigations.
- Subcontractors must meet equivalent standards and provide evidence when requested.

## Policy requirements

- Apply the waste hierarchy: prevention, preparation for reuse, recycling, other recovery, disposal.
- Plan materials to reduce surplus, packaging, energy, water, noise, dust and travel.
- Use only authorised waste carriers and permitted/exempt facilities; verify registrations.
- Segregate hazardous waste, WEEE, metals, timber, plasterboard, packaging and general waste where practicable.
- Never burn, bury, fly-tip or discharge pollutants to drains/watercourses.
- Maintain spill controls and report environmental incidents immediately.

## Operating procedure

1. Identify environmental aspects and waste streams at quotation/pre-start stage.
2. Agree client responsibilities and storage/segregation areas.
3. Order accurately and select lower-impact/recycled products where fit for purpose.
4. Label and secure waste; keep incompatible/hazardous streams separate.
5. Complete accurate waste transfer notes or hazardous consignment records and verify destination.
6. Record quantities where practicable; inspect sites and investigate deviations.

## Records, monitoring and review

Waste transfer/consignment documentation, carrier checks, site inspections, spill records and training are retained for the applicable legal period and normally at least three years.

Performance is reviewed at least annually and after any significant incident, legal change, complaint, audit finding or material change in operations. Corrective actions are allocated, tracked and closed.

## Approval
